Agitation Piece
dispenses the
'un-dispensable'

MAXIMIZER™ WITH AGITATION GRAVITY DISPENSER SYSTEM

Introducing the Maximizer™ with Agitation from Trade Fixtures, a complete gravity-fed bulk dispensing system that dispenses what other bulk bins simply cannot.

The Maximizer™ with Agitation **dispenses the 'un-dispensable'** – including flours, gummies and dried fruits – without jamming, caking or waste.

Imagine being able to merchandise those hard-to-flow items that normally would go in a scoop bin. With Maximizer™ and the added "Agitation" feature, you can!

The Maximizer™ with Agitation from Trade Fixtures is designed and built to maximize both bulk sales and profits. All systems are equipped with Maxi-Seal technology to provide the tightest seal available from Trade Fixtures – eliminating waste and frustration, while keeping your products fresh.

Airtight Maxi-Seal technology keeps bulk food fresher

Three-tier design maximizes display space and reduces overall footprint

Can be installed onto existing fixtures, no new construction needed

Adjustable flow control puts you in charge of the rate of product discharge

Capacity of each bin can easily be adjusted using the available expansion rings. Bins can be adjusted from 12" to 30" tall

Innovative agitation feature keeps even sticky and powdery foods flowing with ease

By eliminating the need for a scoop, the Maximizer™ with Agitation is the clean and easy solution for customers looking to buy bulk products.

Installing a system also creates a new and exciting in-store experience for customers. Its fresh look provides new merchandising opportunities that attract new customers.

MAXIMIZER™ WITH AGITATION FEATURES

- Clear, BPA-free gravity bin
- Easily adjustable Flow Control
- Each bin features a 12" tall (1-piece) base body, with optional 6" tall expansion sections to easily expand the holding capacity of the bin
