

## THE MOST DURABLE CHOICE WHEN SELECTING A BULK GRAVITY BIN

Grocers know that bulk gravity bins offer many benefits to customers and the environment. But day-to-day rigors of retail by shoppers and stockers can take a toll on bulk bin fixtures. If damage occurs, it can lead to out-of-stocks and missed sales while stores wait for replacement parts or bins.

**Trade Fixtures knows this is a serious pain point for store owners. That's why, unlike other brands, we put quality first by using only the most durable materials for our gravity bins. The patented copolyester material outlasts and outperforms our competitors'. To prove it, we put our bins and competitors to the test, dropping them again and again from different angles and heights to ensure they are built tough to last you many years.**

### WE DROPPED THE BINS, NOT THE BALL

Accidents happen, so we arm you with quality. Trade Fixtures tested the durability of our products compared to competitors, to ensure they can hold up against common grocery store wear.

**Here's how we executed the tests:**

**We enlisted a third-party test team to conduct the analysis**

**Each bin was dropped from different heights 40", 52" and 64"**

**Each bin was dropped in different orientations**

**After each drop, the bin was examined for critical damage**

**If it passed, the bin was dropped again for up to 3 drops per bin per orientation**

**Trade Fixtures Gravity Bins  
SUCCEEDED IN  
100%  
OF OUR DROP TESTS**  
*Unmatched by competitors*

**Trade Fixtures has bins that  
have been in stores for over**

**20 YEARS**

**Now, that's a good investment**

## OUR BINS DELIVERED ON DURABILITY

Pass = Bin dropped, could be reassembled and is functional

Fail = Bin dropped and could not be reassembled

### TRADE FIXTURES BINS

SUCCEEDED IN  
**100%**  
OF OUR DROP TESTS

### COMPETITOR BINS

SUCCEEDED IN  
**ONLY 12%**  
OF OUR DROP TESTS

## THERE'S A REASON TRADE FIXTURES BINS LAST

The longevity of Trade Fixtures bulk gravity bins is delivered by careful and intentional design. We utilize only the toughest materials for our products, giving you the longest life for your fixtures.

- Trade Fixtures has bins that have been in stores for over **20 YEARS**
- Trade Fixtures uses **PATENTED COPOLYESTER MATERIAL**, making our products more robust than competitors
- Trade Fixtures is always innovating, finding the **BEST, MOST DEPENDABLE SOLUTIONS FOR YOUR STORE**

More durable products mean fewer parts and bins will need to be replaced or repaired over time. Trade Fixtures bins are made from reliable materials that require less maintenance and downtime, saving your store time and money.
